FACILITIES PLANNING

Have you identified areas to shelter in place in the event of an emergency

The best hiding places have the following attributes:

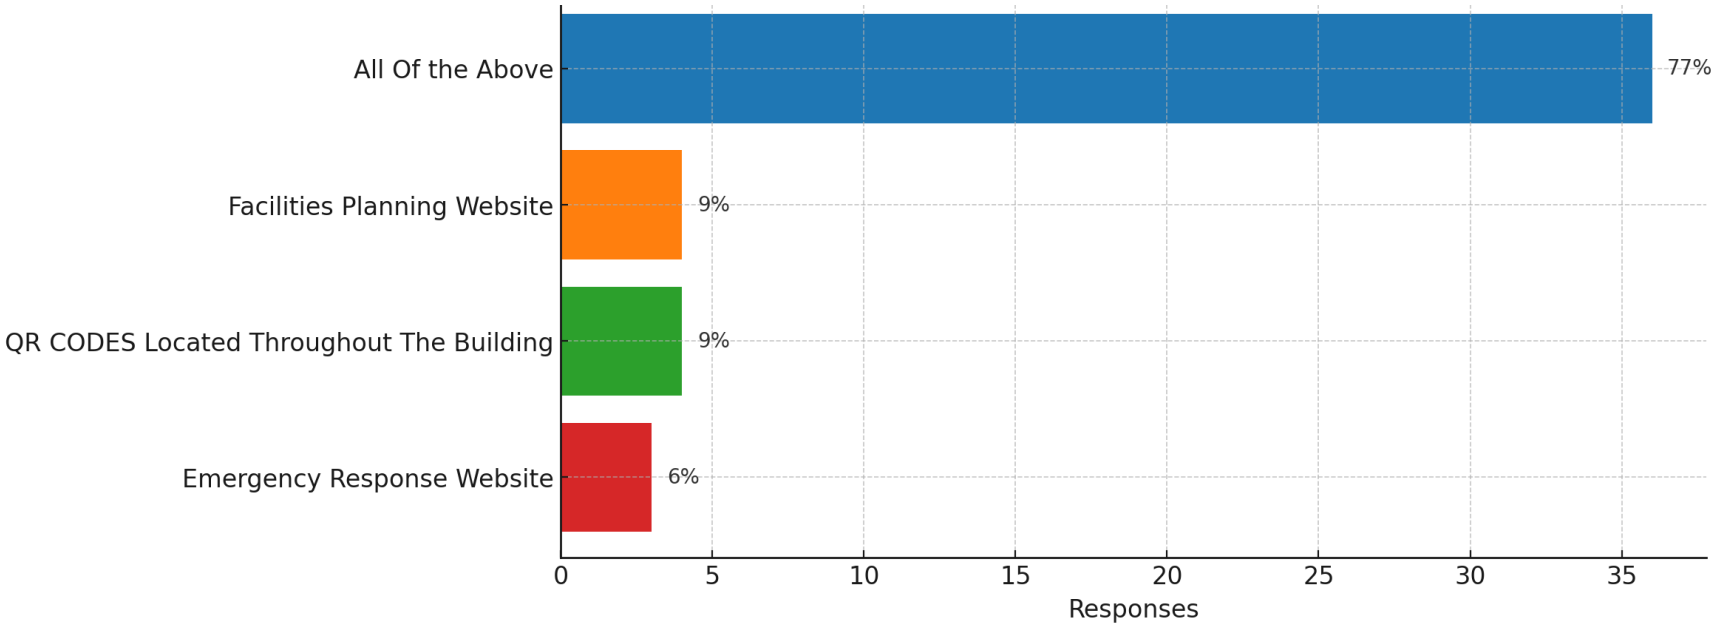

- The door is thick metal or solid wood
- The door locks from the inside.
- The door turns inwards
- You can turn the lights off
- You can barricade the door
- There are no windows facing the hall
- The exterior windows have shades that can be drawn
- There are objects within the room that you can use for additional cover, such as a desk or a table; ensure you are able to move it
